1 Management of mobile devices and resources: A remote personal device
◈ management framework based on SyncML DM specifications   ⊟
Hailiang Mei, Johan Lukkien
May 2005 **Proceedings of the 6th international conference on Mobile data management MDM '05**
Publisher: ACM Press
Full text available: 📄 pdf(335.13 KB)   Additional Information: full citation, abstract, references, index terms

This paper describes a new design of the remote device management (RDM) framework,
which is suited to personal devices. Once this Remote Personal Device Management
(RPDM) framework is enabled, parties like manufacturing companies, service providers,
and consumers can immediately benefit from gaining access to critical information about
the operational status, maintenance functionalities and potential security issues of these
devices.We give an overview and comparison of existing remote managemen ...

Keywords: RPDM, SyncML DM, access control, privacy, remote device management,
security

1 Scientific and business appliations: survey of progress and trend of development and
     use of automatic data processing in business and management control systems of
     the Federal Government, as December 1957—II
     May 1959 **Communications of the ACM**, Volume 2 Issue 5
     Publisher: ACM Press
     Full text available: 📄 pdf(609.29 KB)   Additional Information: full citation

2 Channel analysis for the IBM 7090
     Bernard Roth
     January 1961 **Proceedings of the 1961 16th ACM national meeting**
     Publisher: ACM Press
     Full text available: 📄 pdf(115.55 KB)   Additional Information: full citation, abstract, citings, index terms

     This paper is primarily concerned with the IBM 7090 and the technique by which optimum
     performance can be attained through the proper balance of input/output channels.
     However, it should be possible to apply channel analysis to the present generation of
     computers with facilities for parallel input/output operation and computations. It is
     assumed that the reader is familiar with the hardware and relationship of channels or tape
     stations with input and output and some knowledge of the functio ...

3 Business Services Networks: delivering the promises of B2B
     Jay M. Tenenbaum, Rohit Khare
     March 2005 **Proceedings of the IEEE EEE05 international workshop on Business
              services networks BSN '05**
     Publisher: IEEE Press
     Full text available: 📄 pdf(223.11 KB)   Additional Information: full citation, abstract, references

     The fundamental challenge of e-commerce is enabling companies to do business with one
     another across a network, despite different business processes and computer systems.
     Traditionally, these problems were overcome through custom point-to-point integration or
     Electronic Data Interchange (EDI) networks. These expensive, time-consuming
     approaches make economic sense only when companies do a lot of business together. The
     promise of the Internet, by contrast, is an open e-business platform where com ...
